Dear CHASE Participant:

The purpose of our program is to provide you with a unique and exciting experience on the water. This guide will help you prepare for your adventure at CHASE.

At CHASE we work as a team to build leadership skills, learn seamanship, and most of all, have fun. A week at CHASE will challenge you, but you'll come home with a boatload full of adventure and a sea of memories.

Please remember that this is a high adventure program and it is not for everyone. We do not offer luxury cruises, Jacuzzi suites, or sodas with umbrellas in them. Rather, we provide the opportunity for you and adults alike to learn the ins and outs of sailing on a 34'-38' keel sailboat. You will be responsible for cooking meals for your crew, cleaning and maintaining the boat, and getting the boat safely from port to port. If you are ready for adventure, and don't mind working hard and getting wet, come aboard for an experience of a lifetime.

CHASE will be in its 14th year of operation this season. Due to your interest in the program, and your input from previous seasons, we continue to grow and improve. Our staff is here to assist and guide you through the rigors of the Chesapeake Bay High Adventure Sailing Experience.

If you have any comments, concerns, or questions, please let us know!! We certainly look forward to seeing you this summer.

Sincerely,

David Chapman
Bayport Director

Program Overview

There is one thing that you must do to make the week successful: **BE FLEXIBLE!!** Running a program that is dependent on the wind and water is a continuous challenge. Our staff is dedicated to providing you with the best program and experience you have ever had at a Boy Scout camp. However, please be understanding when the schedule changes because of conditions beyond anyone's control. Sailing is near impossible when there is no wind, and very difficult when there is too much! You'll have fun making the best of each day's changing conditions. Opportunities and alternative plans are always in the wings, waiting to be put into action!

Participants in this program will spend the week aboard one of our cruising sailboats. Life aboard is not a luxury cruise, rather it is a continuous learning experience aboard a working sailboat. Every soul aboard is needed to successfully operate and navigate their boat from marina to marina. Watch rotations are set for duty stations and galley duty. Duty Stations include the Bow-watch, Officer of the Deck, Navigator, Sail Trimmer, and Helmsman. Those not assigned to a duty station are required to assist wherever they are needed.

Galley Duty is shared by all on-board. For each meal, one group cooks and another cleans up. All meals are prepared on-board or on BBQ's in each port of call. Just remember, the more people help, the more time you have for swimming and just plain relaxing.

The crew is also responsible for the general up-keep and maintenance of the boat. Each day, as the boat comes into port, the crew stows all gear, coil all lines, and makes the boat presentable while it is secured for the night. While in port, the crew is expected to follow the marina rules and follow traditional marina etiquette. Twice during the week, the crew will give the boat a top-to-bottom, inside-out scrub down.

Typical Schedule

A typical week's program and schedule is as follows:

- Sunday: Upon arriving at CHASE you will be given an opportunity to remove any unnecessary gear or equipment at the gear check. Then it's on to the critically important swim check. Your safety is vital to having fun during your week. All participants will be required to successfully complete the standard BSA swim check, consisting of jumping feet first into water over your head in depth. Swimming 75 yards in a strong manner, using one or more of the following strokes: sidestroke, breaststroke, trudgen, or crawl; then swimming 25 yards using an easy, resting backstroke. The 100 yards must be swum continuously and include at least one sharp turn. After completing the swim, rest by floating.
- If you are unable to successfully pass the swim test you will be sent home immediately at your own cost or have the option of participating in traditional boy scout camp or Cope/Climbing at the Rivah Base (if space is available). After you complete the swim test, you will be given a tour of the boat, learning the parts of the boat and developing your job or "watch" rotation schedule. Following orientation on the boat participants will go to dinner followed by a lesson on rules-of-the-road, points of sail, and chart reading and navigation.
- Monday: After breakfast on your boat, the rest of your food provisions will be stored onboard and you are underway. Each morning, the Officer of the Deck announces the watch rotation for each crewmember. These duties rotate hourly during the day. Late afternoon, you arrive at your first port of call.
- Procedures are followed for making the boat ship-shape BEFORE you leave the boat to explore the marina and town. Dinner is prepared by the crew on BBQ's and cooking stations located at each destination. Each evening you will review your charts and plot your course for the next day. Evening activities include movies, touring the town, or swimming at the marina.
- Tuesday through Thursday: Continue on your sail. You may stop to swim in the Bay to cool off, or steer off course to follow a school of dolphins. You might practice a "man-overboard" drill. Each port-of-call offers a different experience with docking and evening opportunities.
- Friday: After breakfast, you will begin with a total boat scrub down. It's amazing what a week's work of sailing does to a boat! The crew's final test is to get back to CHASE by 4:30 p.m. so you can join the Rivah Base participants for a Crab Pickin' Dinner and Awards Program. Each boat crew must have a skit ready to present to the other crews.
- Saturday: After breakfast, all gear will be taken off the boat and one final cleaning will be made. After the Captain and Base Director inspect the boat, medical forms will be returned and you head home with a week's worth of fun and memories.

Though our ports of call change from year to year due to availability, last year we visited the following locations:

- Deltaville
- Fishing Bay
- Urbanna
- Tangier Island
- Windmill Point

Again, please remember that these activities and this schedule may change as weather changes or situations arise. The key to a successful week on the water is flexibility.

The CHASE Staff is dedicated to provide you with the best high adventure experience of your scouting summers. Thus, if you see any areas where we can improve, please write them down at the end-of-week evaluations. Your input is the best way to determine how we can grow. If you have any questions about this guide or program, please do not hesitate to call us at (757) 595-3356.

Health and Safety

The safety and well being of all CHASE participants is the top priority of the CHASE Staff. The following guidelines have been developed to help ensure a fun, safe program for everyone.

Insurance:

Units from Colonial Virginia Council of the Boy Scouts of America are covered by Council Accident insurance during scouting events. This policy is effective only after personal coverage is applied first. Out-of-Council participants must provide proof of insurance.

Pets:

Vehicles:

All vehicles must check-in with the Base Director and park in an assigned parking area.

Fatigue and Heat:

Virginia is notorious for its summer heat and humidity. Crewmembers are encouraged to drink plenty of water throughout the day, and get plenty of rest at night. Failure to take this seriously can result in serious health risks.

The following items and actions are strictly prohibited at CHASE and are a cause for immediate dismissal:

- The crew leader, Base Administrator, or Ship's Captain is responsible for enforcing these rules and disciplining those crewmembers who break them.
- The Base administration or ship's Captain is available and prepared to assist in establishing communication in the event of inter-crew problems.
- If the Base administration believes that further disciplinary action is required of any crewmember, they will intervene. Chartered partners of the participant's home unit and/or a Council representative will be contacted for serious infractions.

- The Base administration will immediately send home any crewmember who steals, vandalizes, or intentionally places another crewmember, staff member, or other person in danger. The administration reserves the right to take further action themselves if necessary, including sending the entire crew home within 24 hours.
