# 2015 Little Bennett Klondike Derby - Potomac District

## General Information

- When:** Friday, January 16 to Sunday, January 18, 2015
- Location:** Little Bennett Regional Park, 23701 Frederick Road, Clarksburg, Maryland. Park Manager **301-528-3430**
- Directions:** From Interstate 270, take Exit 18 to Route 121 (Stringtown Rd) towards Clarksburg. At the second traffic light turn left onto 355 (N Frederick Rd). Proceed north to the second entrance for Little Bennett on the right. The first entrance you come upon is a maintenance yard, which is the overflow parking area and parking for the Webelos events. Scout Troops should proceed to the second entrance, and go either directly to their camp site(s) or to the Nature Center if the site is unknown.
- Invitees:** Girl and Boy Scout Troops and Venture Crews in the National Capital Area Council and surrounding Councils / Districts.
- Reservation / Registration:** Each campsite is \$90, due at time of reservation\*\*. Sites hold up to 11 campers and 2 vehicles max. **Campsites must be reserved in advance on a first come, first served basis. No on-site reservations.** In the spirit of Leave No Trace and to maintain our relationship with the Montgomery Department of Parks, attendance will be limited to the number of available campsites.

Each participant is charged a fee of \$5, due at the time of on-site registration at the Derby. See "Check-In" below.

Make payments with checks payable to: "NCAC-BSA".  
Note on check "Cost Center 679 / Klondike Derby 2015."

**ONLINE RESERVATIONS PREFERRED.** To register online go to:

NCAC home page (<http://www.ncacbsa.org/>)  
Districts > Montgomery Service Area > Potomac District  
Monthly Online View of the Calendar  
Go to January 2015  
Click on Potomac Klondike Derby on 16 January  
Click on Register  
Sign In and follow instructions

Multiple campsites can be reserved by following the instructions on the registration page. While online, note if you wish to sponsor a derby station (deducts \$35 from on-site unit registration fee) or have special campsite requests such as parking troop trailer.

If reserving campsite(s) by mail, see page 11.

The Klondike Derby staff will be notified of your registration. You will then be emailed the Program Packet along with a request for number and name of Patrols. Please return by email to [KlondikeDerby@gmail.com](mailto:KlondikeDerby@gmail.com) as soon as possible.

\*\*The site registration fee covers the cost of the campsite fee, latrines, awards, recognition, and some organizational expenses. The participant fee covers insurance, the Klondike Derby patch, and council overhead.

- Patrols:** Each Patrol should consist of approximately six (6) to eight (8) Scouts. The Patrol is the unit that makes Scouting go. Patrols should not be organized on the basis of experience or age. The older boys should help the younger boys up the Scouting trail. **Each Patrol should have a flag and cheer for the competition.**
- E-mail:** The Klondike Derby email address is [KlondikeDerby@gmail.com](mailto:KlondikeDerby@gmail.com).
- Klondike Derby HQ:** The Nature Center is headquarters for the Klondike Derby.
- Check-In:** **Dates/Times:** Friday, January 16 - 5:00 pm to 9:00 pm  
Saturday, January 17 - 7:00 am to 8:00 am

We will confirm your site via email before you arrive at camp. When arriving at the Derby, proceed directly to your assigned sites. Then have one adult bring your **Roster** (listing both Scouts and adults **See Page 11**) and \$5 per person attending (Scouts and adult leaders) to the admin area in the Nature Center on preferably on Friday night (5:00-9:00pm) or Saturday morning (7:00-8:00am). If your Unit is running a station, note on the Roster the names of those who will be assisting so they may be given Staff patches. Units leading and running a station will be given a \$35 credit towards their participant fees at this time. For parking information see details under "Parking."

- Orientation:** Klondike Derby orientation is on **Friday, January 16 at 9:00 pm** at the Nature Center.
- Scoutmasters and Senior Patrol Leaders are strongly urged to attend the Friday evening orientation** for updates to the program. **Any person serving on the Klondike Derby Staff and unit adults assisting with the events on Saturday should also be in attendance.** Adults serving as Klondike Derby staff members (Unit adults, Venturing Crew members, and the Order of the Arrow) are welcome to the cracker barrel following the orientation session and after the campfire on Saturday evening.

- Event Agenda:** The event schedule is included in this packet. See page 9. A revised agenda reflecting any changes will be available at registration and will be posted at the Nature Center.
- Vehicles:** **Vehicles are not permitted on the fields.**  
Drivers must observe and obey speed limit signs posted in the park. Be mindful of pedestrians on the roads. The Park Police will ticket violators. If an illegally parked vehicle is ticketed, it may also be towed.
- Parking:** Because parking is very limited, make every effort to carpool to the event. Only two vehicles may be parked on the parking pad at each campsite. No vehicle may be parked in the road. Emergency vehicles must have unobstructed access to the sites; **Cars parked on the side of any road will be subject to a parking ticket and towed. No parking is allowed near or on the playfields.**  
Overflow parking is located at the Park's maintenance yard (exit onto Route 355, turn left and make the first left) and also directly across Rt 355 at High Point Farm. Park in the overflow area after your unit equipment is unloaded in your campsite. **Visitors** must also park in the overflow area. Unit leaders are responsible for informing other drivers in their units that they must park in designated areas. To assure the safety of participants during the event, drivers must not drive to nor park their cars at or near the playfields.
- Attire:** The Scout uniform is to be worn at all events. Supplement the Scout uniform with additional layers of clothing.  
It is critical that each individual know how to keep warm and dry. Winter weather with changing conditions necessitates being prepared for almost any condition. Cold weather camping requires adequate clothing and waterproof boots to protect the camper, yet be versatile enough to prevent sweating during activities and to retain warmth during idle periods. In order to stay warm, Scouts should layer their clothes. A second and third change of inner clothing will be required for a Scout's personal safety and comfort. Prior to dinner, leaders should see that any Scouts with wet or damp inner clothing change to dry inner clothing. Wearing damp or wet clothing next to the skin during idle periods, such as at dinner time or at the campfire activities, is a prime time for the body to become cold and could result in hypothermia. A winter cap or hat is necessary during the day and at night in the sleeping bag. Before arriving at the Derby, leaders should review the important principles of winter dressing with all participants to ensure a safe and rewarding experience for all.  
**No tennis shoes/sneakers will be permitted.**  
**Campers improperly prepared for the weather will be asked to leave.**  
**See "Important Things About Winter Camping" included in this packet.**
- Derby Stations:** Descriptions of the various stations run during the Saturday competition will not be detailed. In general, there will be stations that use traditional Scouting skills, such as: compass reading, fire building, knots, lashings, and first aid. There will be other stations that require problem-solving or initiative games.
- Survival Kits:** The survival kit contents changes slightly each year. See page 6 devoted to the details of this year's kit. The contents of the survival kit may be updated and emailed in early January.  
The survival kit will be judged against three criteria and will count toward the overall Klondike Derby score. Survival kits and sled must be placed in the designated area (near the Nature Center) on Friday night before 9:00 pm. The designated area will be communicated at registration time in the Nature Center. The preference is for the Patrols to wait while their kit and sled are judged by the OA, then take their equipment back to camp.
- Adult Participation:** Adults are **strongly discouraged** from accompanying Patrols during the Saturday Patrol competition sessions. We would like adults to work at the derby stations. Units may offer to host a station by contacting [KlondikeDerby@gmail.com](mailto:KlondikeDerby@gmail.com). In exchange for a \$35 credit, these Units arrange for the materials, provide the top leadership, and provide several volunteer station leaders (adults or senior Scouts). Other lone or pairs of adults are encouraged to help at stations – please email [KlondikeDerby@gmail.com](mailto:KlondikeDerby@gmail.com) and we'll connect you with a Unit hosting a station.
- Additional Competitions:** The Dessert Contest and 2016 Derby Patch Contest will take place after dinner on Saturday night. The traditional sled race is optional and will be held Sunday morning.
- Campsites:** Units will be notified of their campsite assignments by email before arrival. Otherwise, site assignments will be obtained at the time of on-site registration at Headquarters. Sites will be allocated according to the size of the units and are done at the sole discretion of the Klondike Derby Staff Registration team.  
Remember, only two vehicles may remain at the assigned site. See "Parking" for more details.
- Campfire:** Members of the Order of the Arrow will lead the Saturday night campfire at the amphitheater and will conduct programs for both an OA call-out and the skits to be performed by Patrols. **Troops and/or Patrols are encouraged to prepare songs and skits** and present their ideas to the OA at the Friday night Leaders' Meeting in the Nature Center.
- Webelos:** Webelos may observe the Boy Scouts in action but may not participate in these activities, nor camp overnight. A separate Webelos program will take place on Saturday between 1:00 and 4:00 pm. Troops are encouraged to invite dens for a lunch (or snack) campsite visit. Webelos leaders should encourage carpooling with their units. Webelos must park in one of the two overflow locations outside the park entrance.
- Religious Services:** A non-denominational service will be held on Sunday morning. Organizers will also try to set-up a Catholic Mass. See information posted outside the Nature Center on Saturday.

- Food:** Each Troop is responsible for its own meals during this event. Patrol cooking is encouraged. Patrols should plan a hot portion for each meal.
- Fires:** Open fires **MUST** be kept in the designated fire ring at your campsite. Wood may be obtained from any downed trees, and is often available for sale from the rangers (\$5 per bundle). No standing tree may be cut. Only qualified persons may operate chemical stoves.
- Water:** Water will be available from pumps located throughout the campground and will be operable. **DO NOT WASH DISHES AT THE PUMPS! Please emphasize this with Scouts.** See "Camping Dishwashing Procedures" in this packet.
- Latrines:** Portable toilets will be provided as latrines. Please have Scouts use them with respect. No horsing around the latrine areas. Restroom buildings located throughout the campgrounds are locked and inoperable during the winter season.
- Cancellation:** The event will not be postponed. In the unlikely event of a major blizzard, the event may be canceled. In such cases, event updates will be emailed to Unit Klondike contacts.
- First Aid:** A first aid station will be open at all times during the Klondike Derby. It is located in the lower level of the Nature Center. All injuries, however slight, must be reported to the first aid station.
- Trash:** Troops are responsible for their own trash. All trash must be packed out on Sunday morning. **DO NOT** deposit any trash in the various trashcans located throughout the park.  
**REMEMBER:** If you pack it in, you pack it out.
- Lost & Found:** The Nature Center will serve as the repository for found items. To minimize lost gear, Scouts should label all personal gear with name and unit number.
- Check-Out:** A Klondike Derby Staff member must sign out every unit.  
After your unit has completed site clean up and has packed away your unit gear, a representative should go to the Nature Center registration and arrange to have a Staff Member inspect the site. Site inspections commence on Sunday at 10:30am. Early check-out can be arranged.  
When the site has been checked by a Staff Member, the Staff Member will issue Klondike Derby patches and a participation ribbon to the unit.  
**Troops leaving without being checked out by a Staff Member will not receive Klondike Derby patches.**
- Refunds:** Refund requests for sites must be made 15 days **before** the Derby, as our costs are committed by then. Refunds may be granted for all but 15% of the fee under certain circumstances. Request the refund in writing to:  
Kent Sneed  
Potomac District Executive  
National Capital Area Council, BSA  
9190 Rockville Pike  
Bethesda, MD 20814  
No refunds will be made at the Klondike Derby site.
- Reminders:** Two adult leaders, at least twenty-one (21) years old, must always be present with the unit (except during the competition). As always, drugs, alcohol, fireworks, sheath knives, etc. are not allowed.
- Why do we do this?:** Every adult leader is asked at some point why we take part in a winter camping experience like the Klondike Derby. The staff who put on this event talk about reasons for our own participation, being:  
1. It's a chance to learn and test our winter camping skills, and more importantly help reaffirm a major lesson we teach in the Scouting program - you can overcome anything with planning, leadership, cooperation and practiced skills.  
2. It helps us teach basic Scouting skills in the program. Lashings can be tough to get Scouts to do as an abstract exercise. Tell them to make a catapult, though, and lashings go to the top of the list of neat things to do.  
3. And finally, it's FUN!
- Questions?** Send an e-mail to [KlondikeDerby@gmail.com](mailto:KlondikeDerby@gmail.com).

# 2015 Little Bennett Klondike Derby - Potomac District Patrol Survival Kit & Competition Guidelines

Each Patrol should bring a survival kit. The scenario is that the survival kit has been dropped by an airplane to sustain the Patrol through their adventures. Below is a list of items necessary to successfully compete at this year's Klondike Derby. **Patrols must deposit their survival kits at the designated area by the Nature Center no later than 9:00pm Friday evening.** Do not leave your survival kit unless you or a staff member has labeled it with your Troop number and Patrol name. Survival kits will be judged and scored against the following criteria:

- 1) Visible Patrol identification including Troop number,
- 2) Portability/compactness/usability, and
- 3) Durability.

The score for the survival kit will count toward the overall Klondike Derby score.

## **Survival Kit Contents:**

Fuel, kindling, and tinder for 2 fires  
Matches  
Bottled water (1 qt.)  
Pancake batter  
Pot for cooking (1 qt.), fry pan, spatula, hot-pot tongs or pliers  
Duct tape (1 foot)  
Compass  
Pencils and paper (two sets per Patrol member)  
First aid kit  
Blanket (not space blanket)  
Tarp, approximately 6 ft x 8 ft  
Rags (6 or more, useful as bandages, splinting material, and blindfolds)  
Rope - at least 8 which are 8 feet or longer, 1 should be 12 feet long  
Twine (lots), or parachute cord (at least 50 ft)  
Knife – to cut twine, cord, or rope  
Trash bag  
At least six (6) staves, each 5 feet or longer  
Personal reusable mugs for hot drinks at warming stations

**Note: Recommended contents of the survival kit may change. If so an update will be emailed in early January.**

## ***Sleds:***

The use of sleds by the Patrols at the Klondike Derby is strongly encouraged.

- Sleds should have Troop numbers and Patrol names on them.
- The sleds will be judged by the following system: 7 points for having a sled, and up to an additional 3 points for creativity, originality, craftsmanship, etc.
- If a Patrol already has a sled, that sled may be used. Even a child's plastic sled will do!
- There will be sled races on Sunday morning. They are not part of the Patrol scoring competition. The sled races are just for bragging rights.
- Sleds should be designed to navigate the trails and roadways in both snow and dry conditions because we are uncertain if the order that was placed for at least a foot of snow will be processed in time for the Derby.
- If wheels are used, they must be removed for the sled races on Sunday morning. OA staff may allow sleds with wheels that are not removable to race separately, but it is at their discretion.
- When the wheels are off, use tennis balls to cover the axles and to ensure safety.
- Tow ropes or leads on sleds should be limited to a length that will allow the sleds to be used in a safe manner.
- Sleds with unusually long tow ropes or leashes as deemed by the judges will be disqualified from participating in the competition.
- All participants competing are expected to operate and manage the sleds in a manner appropriate to Safe Scouting and to prevent hazards that would result in bodily injury.
- Sleds that are expected to be used in the races may not have commercially made skis for runners.
- Scouts participating in the race must be prepared to prevent falling during the race and to respond appropriately in the event they slip and fall during the race.

Sled plans may be found at website: <http://www.inquiry.net/outdoor/winter/gear/sleds>

**Stations:** A detailed description of the various stations to be run during the Saturday competition will not be included in this packet.

In general, there will be stations that use traditional Scouting skills such as: compass-reading, orienteering, fire-building, knots & lashings, rope-tossing, first aid, and a number of problem solving or initiative games. A Patrol has to follow instructions carefully in order to complete each event. Adults are strongly discouraged from accompanying the Patrols through the station activity and are instead encouraged to assist at the stations where necessary. Doing so will provide the opportunity to observe other Patrols from other units in action and to pick up some tips from the collective intellect of the Patrol at work.

The following general instructions apply to each station:

1. When a Patrol reaches a station, it should park its sled in the designated parking area and greet the Station Mayor/s with their Patrol Yell/Cheer.
2. A Patrol should follow the instructions of the Mayor. A Patrol will need to know what was said for that station and perhaps others.
3. When a Patrol is instructed to do something, it should perform whatever actions are required. The Patrol should remember what was learned but should also feel free to be creative. If the Patrol thinks that it has a better solution, it should use that solution and then explain why it was used. Teamwork is critical. If good results are obtained despite bickering and uncooperativeness, the score will be worse than a poor result that is achieved with teamwork, good attitude and real effort.
4. Once a Patrol completes the station, it should tell the Mayor. If the Patrol finishes early, they are not dismissed until directed by the Station Mayor.
5. The Patrol should get the instructions to find the next station unless information given at start of the day.
6. The start time for all Patrols will be 9:15 am.
7. Stations will close for lunch from 12:00-1:00pm.
8. Stations will be open from 1:00-4:00pm.

### **Station Scoring:**

Scoring for each station at the Klondike Derby emphasizes the teamwork and the Patrol method of the group as opposed to the specific Scouting skill being tested. If a Patrol cooperates with each other and shows good Scout Spirit, they will do well in the competition no matter how new they are to Scouting. They are rewarded for understanding what Scouting is all about – doing your best while living by the Scout Oath and the Scout Law.

#### **How the Patrol is scored at each station:**

- 5 points for participation (DOING, not just attending)
- 2 points for Patrol Spirit. (i.e. acting as a group of one and not one of a group)
- 1 point for Patrol Yell/Cheer (unsolicited)
- 1 point for Patrol leadership (does the PL take charge and direct, and make use of his resources)
- 1 point for demonstrating sportsmanship or teamwork (depending on the activity)
- 1-5 points for completing the activity/problem.

### **Dessert Contest:**

Each Patrol should make a dessert from scratch while at the Derby.

- Each dessert should be brought to the Klondike Derby Headquarters **between 7:40 and 7:55 pm Saturday night** for judging by the OA Klondike Staff.
- A legible copy of the recipe must accompany each dessert entry, and each entry must be identified by the Unit Number and Patrol Name.
- The Scoutmaster or Troop Leader must certify on the recipe that the dessert was prepared at the Derby from scratch and according to the recipe presented.
- The Patrol Leader and one other Patrol member as designated by the SPL will preface their presentation of the dessert entry and recipe with a Patrol Yell/Cheer.

Dessert scoring will be performed on Saturday night by the specially trained palates of the OA members of the Klondike Derby staff. Any leftovers will be available for leaders during the cracker barrel.

Special Note for Scoutmasters: The requirements for Second and First Class ranks emphasize the use of lightweight stoves. This contest can be an opportunity to teach and/or test your younger scouts on the skills.

### **2016 Derby Patch Design Contest:**

Patch designs are turned in to the OA by Patrol at the time of sled and survival kit judging on Friday night, so Patrols are encouraged to prepare this work ahead of time. Details of the design requirements are given on the next page.

Patrols are awarded 8 points for participation (i.e., turning in a thoughtful design—scribble on paper will not count towards participation). Additional points are awarded for the winner (2 additional points) and the runner-up (1 additional point). The OA Chapter will judge the contest on Saturday evening. Submissions should be in keeping with the Scout Oath and Law and in good taste; the Camporee Director and Program Director reserve the authority to disqualify submissions without appeal. Works may be submitted on the following page or an equivalent form.

This year's patch was the winner of last year's Patch Design Competition! See the winning design on the front cover of this packet!

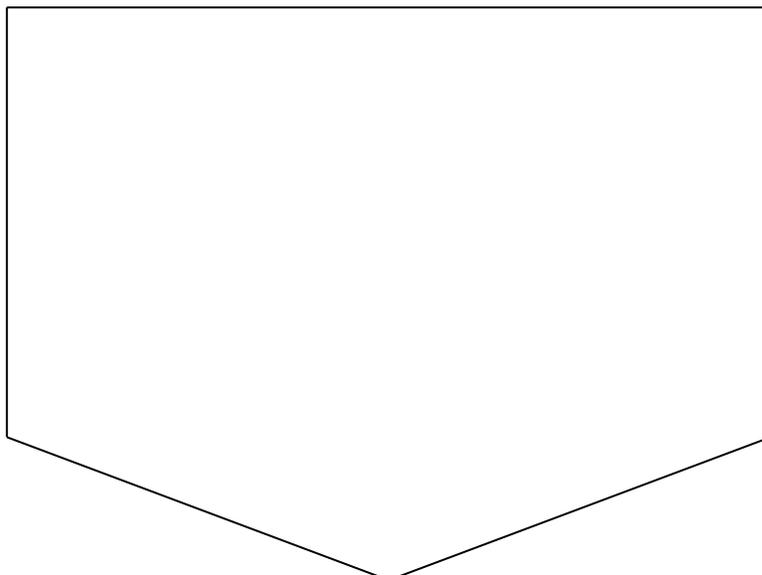

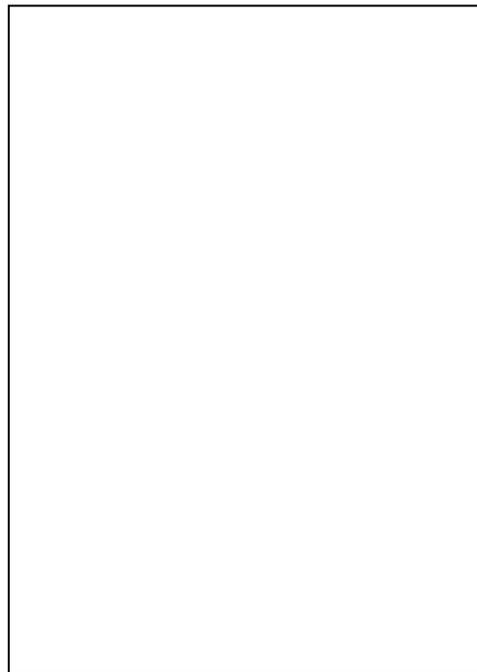

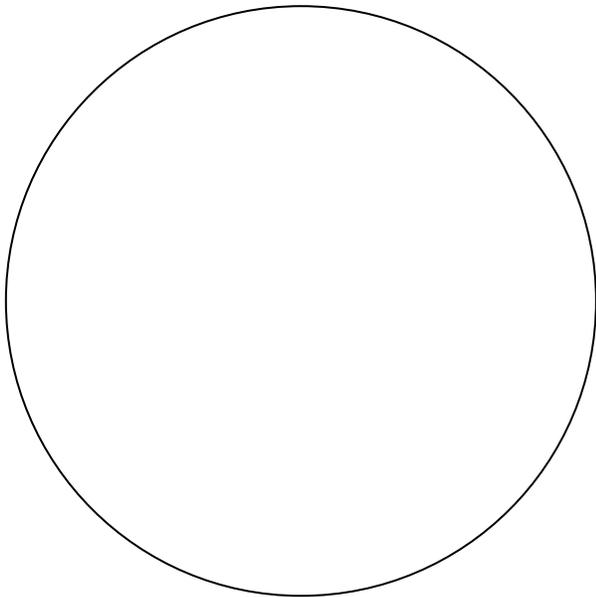

# 2016 Klondike Derby Patch Design Submittal Form

Unit: \_\_\_\_\_ Patrol Name: \_\_\_\_\_

The event organizers prefer that a Scout design the 2016 Klondike Derby patch. Therefore points will be awarded to Patrols as part of the Patrol competition (See Patch Design Contest, previous page).

## Patch Requirements:

- Shape: either 3" round, 2-1/2" x 3-1/2" rectangle (in either orientation), or chevron (see samples below).
- Colors: maximum of 9 (nine) colors
- Required wording and logos:
  - BSA Logo
  - "Klondike Derby"
  - "2016"
  - "Potomac District"
  - "STAFF" (on some patches)

# 2015 Little Bennett Klondike Derby - Potomac District

January 16-18, 2015

## 16 Friday

---

5:00 PM – 9:00 PM Registration – Nature Center (Klondike Headquarters)  
7:30 PM – 9:00 PM Patrols deliver Survival Kit, Sled, and Patch designs to  
OA at the Nature Center  
9:00 PM – 10:00 PM Orientation – Nature Center (Scoutmaster & SPL only)  
10:00 PM Taps – Quiet in Camp. All lights out.

## 17 Saturday

---

7:00 AM Reveille  
7:00 AM – 8:00 AM Registration – Nature Center  
7:00 AM – 8:30 AM Breakfast  
8:45 AM – 8:55 AM Flag Raising – Loop A Field  
9:15 AM Sessions Begin – first stations assigned  
Noon – 1:00 PM **Lunch**  
1:00 PM Stations re-open for afternoon program  
4:00 PM Sessions End  
4:00 PM Flag Lowering – Loop A Field  
5:00 PM – 7:30 PM Dinner at Troop Campsite  
7:40 PM – 7:55 PM Dessert Contest - Patrol Leader to submit at Headquarters  
8:00 PM – 9:00 PM Campfire & OA Call-out – Amphitheater  
9:00 PM Cracker Barrel – Headquarters (Adult Unit Leaders)  
10:00 PM TAPS – Quiet in Camp. All lights out.  
  
1:00 PM – 4:00 PM Webelos Invitation - Registration/Check-in at Entrance Station

## 18 Sunday

---

7:00 AM Reveille  
7:00 AM – 8:30 AM Breakfast  
9:00 AM Worship Services – Amphitheater  
10:00 AM Sled Races – Loop A Field  
Closing Ceremony – Loop A Field  
10:30 AM Site Inspections/Check-Out Begin  
12:00 PM Lunch (optional)  
1:00 PM Site Inspections & Check-Out COMPLETED – Park will close.

# 2015 Little Bennett Klondike Derby - Potomac District

## Troop/Crew Campsite Reservation Form (for those Units not reserving online)

\*\*\* Bring a copy of this completed form & payment receipt at Check-In. \*\*\*

---

Units must submit site reservation(s) along with a fee in order to reserve space for this event.  
**There will be no on-site campsite reservations.**

**Cost:** \$90.00 fee for each campsite (for up to 11 individuals).

In addition, there will be a fee of \$5 per person at the time of arrival at the Derby to cover insurance costs and the Derby patch. The Troop/Crew Registration Roster will be collected at this time.

### After Mailing in the Registration Form:

Send an email to [KlondikeDerby@gmail.com](mailto:KlondikeDerby@gmail.com) with your unit number, District name, number of sites needed and an e-mail address and phone number for your Unit contact. If you have any special requests, such as the need to park a Troop trailer at the site or a desire to be near another unit, please let us know in that e-mail. Also mention if you wish to host a derby event station.

## Webelos Invitation

Open to all Webelos

**Saturday, January 17, 2015 - 1:00 PM to 4:00 PM**

Little Bennett Regional Park - 23701 Frederick Road, Clarksburg, Maryland

Webelos Scouts and their leaders will find at least three good reasons to attend:

- They can see Boy Scout Troops in action, solving problems and displaying Scouting skills.
- It satisfies a requirement for the Arrow of Light to take part in an outdoor Boy Scout activity.
- Most of all, IT'S FUN! Webelos will be able to take part in some of the same team building and problem solving challenges given to the older Scouts.

A special area at the Klondike Derby will be set up for Webelos Dens to try out several of the stations at which the Boy Scout Troops compete. These stations will not require any special equipment or skills, but they will be fun challenges to help the Webelos work as a team and to solve a challenge while burning off some steam. After trying their hands at these stations, the Webelos can go to the main competition areas and observe the older Scouts as they try out the same problems while demonstrating some of their Scout skills, including fire-building and knot-tying. Dens do not need to bring any special equipment to the Klondike Derby. Everyone should be mindful of the weather and to dress appropriately. The boys will be outdoors the entire time they are at the Derby. Leaders are encouraged to bring a thermos of hot chocolate and some cups with them to keep their dens warm. Please bring a trash bag as well to carry out all the trash generated by the Den.

**Check-In:** Check-in begins at 12:30 PM at the entrance station to the park. ***Because parking is limited, carpooling is best. To reduce confusion, check in as one large group rather than individually.*** Lines are shorter later in the day – consider arriving at 2:30.

**Directions:** From Interstate 270 follow signs for Little Bennett Regional Park, take Exit 18- Route 121 North east to Clarksburg. At the second traffic light (Stringtown Rd & Route 355), turn left onto 355 and proceed north until you see the main entrance for Little Bennett on the right after the maintenance yard.

**Parking:** **Parking is available across from the main entrance at High Point Farm. Park your vehicle and walk across the street to register at the park entrance. Once you are in the park, follow the Polar Bear signs to find the Webelos activities.** Be aware that available parking is very limited - therefore you need to carpool where possible. Parking is free.

**Clothing:** ***The Scout Uniform is to be worn at all events.*** Supplement the Scout uniform with additional layers of clothing. Leaders must review with all participants the importance and principles of winter dressing. **No tennis shoes will be permitted.** Any attendee not properly prepared for the weather will be unable to participate in the activities. One of the most important requirements is knowing how to keep warm and dry. Each individual must know what to wear for winter weather. Winter weather, with changing conditions, necessitates being prepared for almost any condition. Cold weather camping requires adequate clothing and waterproof boots for protection and yet must be versatile enough to prevent sweating during activities and to retain warmth during idle periods. Wearing damp or wet clothing next to the skin during idle periods is a prime time for the body to become cold and could result later in hypothermia. A winter cap or hat and gloves or mittens are necessary during the day.

***If you are an adult accompanying Webelos, your registration means that you are responsible for ensuring that you and your Webelos will be dressed and prepared for cold weather at this cold weather event.***

**Registration:**

- Cost is \$5 per attendee, which includes the Klondike Derby patch, administrative items and insurance.
- Each adult and boy must register to attend any part of the program, including drivers who stay for the program.
- Pre-registration is preferred, but registrations are accepted on-site. Webelos check-in will take place at the park entrance station.

More details may be obtained from the Potomac District website:

# CAMPING DISHWASHING PROCEDURES

For individual camper health and for the good of the natural environment use these procedures at Little Bennett Campground and anywhere else you may camp!

Follow these directions, and your campers and our campground will be much healthier.  
***ABSOLUTELY NO DISHWASHING AT WATER SPIGOTS OR BATH-HOUSES!!!***

Materials needed:

- Container for garbage
- Paper towel or napkin (from meal)
- 3 dishpans
- Detergent (preferably biodegradable)
- Dish scrubber
- Bleach
- Plastic grocery bag

**BEFORE SITTING DOWN FOR MEAL:** Put large pot or pail of water on to heat.

## **PRIOR TO WASHING DISHES:**

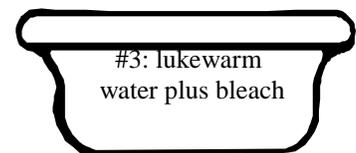

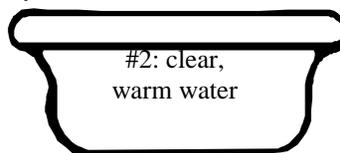

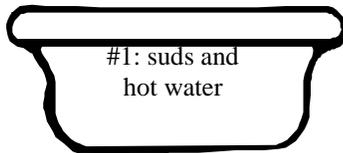

1. Set up container for garbage.
2. Using small piece of paper towel or napkin, wipe ALL food particles into the garbage container:
  - a. Wipe utensils first, cups second and plates third.  
This order ensures that items actually going into one's mouth are as clean as possible.
  - b. After all personal gear is done, use the same steps for the Patrol cooking gear.

**DO NOT ALLOW any gear that HAS NOT been wiped free of food particles into the dishwater.**

## **PREPARING DISHWATER:**

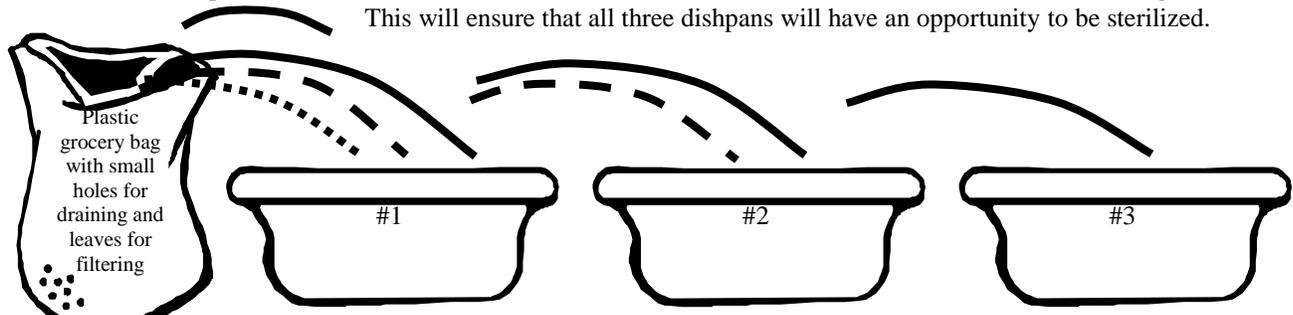

1. Dishpan #1 – wash water: small amount of liquid detergent in first, then add hot water
2. Dishpan # 2 – rinse water: clear, warm water
3. Dishpan #3 – sterilize: lukewarm water with 1 tablespoon beach for every gallon of water; add 1 tablespoon of bleach after every eight campers. Gear stays in this tub for one minute to sterilize.

## **DISPOSING OF DISHWATER:**

1. Prepare a plastic grocery bag for straining any food particles that may have sneaked into the dishpans.
  - a. Punch several small holes into the corner of the bag.
  - b. Fill the corner with a small amount of leaves and/or pine needles to act as a filter.
2. Carefully empty the dishpans into the bag in the following order and allow the bag to drain after each addition in a different part of the woods each time:
  - a. Dishpan #1 into the bag.
  - b. Dishpan #2 into #1, swish water around and then into the bag
  - c. Dishpan #3 into #2, swish water around, then into #1, swish water around and then into the bag.

This will ensure that all three dishpans will have an opportunity to be sterilized.

3. Dispose of plastic bag properly.

## IMPORTANT THINGS ABOUT WINTER CAMPING

1. You warm the sleeping bag; it does not warm you! Plan to dress lightly by changing into clean clothes when you retire for the night. The clothes you wear during a regular day contain about a pint of moisture from normal perspiration and increase your risk to hypothermia.
2. A closed-cell sleeping pad does not absorb moisture. A dark green or black "Ensolite" closed-cell pad is designed for cold weather; the light-colored "Ensolite" sleeping pad is not. Open-cell pads absorb moisture. An air mattress is useless in winter! If you do not have a backpacking type sleeping bag rated to at least 10-15 degrees F., bring an extra wool blanket. A fleece liner in your sleeping bag provides an extra layer of warmth.
3. You should pack all clothes in heavy-duty Ziploc or plastic bags before you pack them in your pack. Natural moisture in your clothes when you are camping can be uncomfortable when you get dressed in the morning. Backpacks and duffels are not waterproof and they do absorb moisture.
4. Wearing a wool watch cap when you sleep is helpful; remember the chimney effect. When you wear a cap, your feet stay warmer. Fact: 70% of heat loss from the body is through the head.
5. Waterproof your shoes or boots with a "Sno-Seal" before your camping trip. Two or three treatments several days apart are useful. Mink oil does not waterproof.
6. Putting some of the clothes you will wear the next day inside your sleeping bag when you go to bed will warm them up. Always bring at least one extra pair of wool socks for emergencies. Plan on using several pairs of socks each day.
7. Ventilate your tent at night. A closed tent allows condensation to build up on the roof of the tent and it might "snow" or "rain" in your tent.
8. If you are cold or get wet, talk to your leaders. Don't wait until you are numb or until the early morning hours. Learn what hypothermia is before going winter camping and learn to prevent it.
9. No one will have extra clothes or equipment to loan to you should yours gets wet. Take a few precautions before you leave to go winter camping so you stay warm and dry. If you have questions, get answers to those questions before you leave. Keep an extra set of clothes in the car just in case; it's good insurance.

Keeping warm is the most important part of cold weather camping. Use the C-O-L-D method to assure staying warm.

### - C - Clean

Since insulation is only effective when heat is trapped by dead air spaces, keep your insulating layers clean and fluffy. Dirt, grime, and perspiration can mat down those air spaces and reduce the warmth of a garment.

### - O - Overheating

Avoid overheating by adjusting the layers of your clothing to meet the outside temperature and the exertions of your activities. Excessive sweating can dampen your garments and cause chilling later on.

### - L - Loose Layers

A steady flow of warm blood is essential to keep all parts of your body heated. Wear several loosely fitting layers of clothing and footgear that will allow maximum insulation without impeding your circulation.

### - D - Dry

Damp clothing and skin can cause your body to cool quickly, possibly leading to frostbite and hypothermia. Keep dry by avoiding cotton clothes that absorb moisture. Always brush away snow that is on your clothes before you enter a heated area. Keep the clothing around your neck loosened so that body heat and moisture can escape instead of soaking several layers of clothing.

# Hypothermia 101

By [Eric Weiss](#), January 1998, *Backpacker Magazine*

As the temperature dips, hypothermia can threaten survival for backwoods adventurers unaware of its warning signs.

Hypothermia is an abnormally low body-core temperature caused by exposure to a cold environment.

## How to Recognize Hypothermia

### Mild Hypothermia

When core body temperature drops below 95°F, mild hypothermia sets in.

- Person feels cold and shivers at maximum level.
- Person maintains normal consciousness level, remains alert, and has normal or slightly impaired coordination.
- When core body temperature drops below 93°F, the person develops slurred speech, memory loss, poor judgment, and carelessness.

### Mild Hypothermia Treatment

1. Move the person from the cold environment to a sheltered environment.
2. Replace any wet clothing with dry, insulated garments.
3. Give the person warm food and lots of sugary hot fluids (an average-size adult needs about 60 kilocalories of hot drinks or about 2 quarts of highly sugary liquids such as drink mixes) to elevate core temperature 10 F.
4. Slow heat loss by wrapping the person in a sleeping bag, plastic bag, or tarp. Huddling with the person in a sleeping bag will help slow heat loss.
5. Resist the urge to use hot water bottles or heat packs. They can turn off the body's shivering mechanism, and they add very little heat to the body core. Instead, bring water to a boil and have the person inhale the steam, or build a fire.

### Profound Hypothermia

When core body temperature drops below 90 degrees F, profound hypothermia develops.

- The person becomes weak and lethargic.
- The person has an altered mental state (is disoriented, confused, combative or irrational, or in a coma).
- The person is uncoordinated.
- When core body temperature drops below 88 degrees F, person stops shivering.
- When core body temperature drops below 86 degrees F, person's heart pumps less than two-thirds the normal amount of blood. Pulse and breathing are half their normal rates.
- When core body temperature drops below 83 degrees F, the heart is very irritable and unstable, and likely to develop abnormalities. The person is in danger of cardiac arrest. Rough handling of the person increases the potential for cardiac arrest.

**Sobriety Test for Hypothermia:** An excellent test to determine if someone is developing profound hypothermia is to have the person try to walk a straight line, heel-to-toe, as in a sobriety test. If the person cannot perform this task and is not intoxicated, it indicates the progression from mild to profound hypothermia.

### Profound Hypothermia Treatment

Treatment in the backcountry is aimed at stabilizing the person and preventing any further cooling.

1. Handle the person very gently. Rough handling may cause his heart to fail.
2. Place the person in a sleeping bag, or place blankets or clothing underneath and on top of him. Any heat that you can provide will probably not rewarm the person but will help prevent further cooling.
3. A person with significantly altered mental state should not be allowed to eat or drink because of the potential for choking or vomiting.
4. Rewarming is best done in a hospital, because of the potential complications associated with profound hypothermia. Professional assistance is usually needed to evacuate a profoundly hypothermic person.

**Caution:** First-aid management of hypothermic victims should not be based solely on measurements of body temperature because it is often difficult to obtain an accurate temperature in the field.

It may be difficult to distinguish whether a person is profoundly hypothermic or dead. The profoundly hypothermic person may have a pulse and respirations that are barely detectable. Double-check carefully, feeling for the carotid pulse (it is found on either side of the center of the throat where the carotid artery goes to the head). Check this for at least one minute since the heart rate may be very slow. Place a glass or plastic surface next to the person's mouth to see if it fogs up.

**When to perform CPR:** If the person is breathing or has any pulse, no matter how slow, do not initiate CPR, as this may cause the heart to stop beating completely. If there is no sign of a pulse or breathing after one minute, what to do next depends on your situation:

1. If you are alone or with only one other person, cover the hypothermic person and place him in a protected shelter (place insulation beneath and on top of him). Both rescuers should go for help and stay together for safety.
2. If there are multiple rescuers, and it is safe to stay with the victim, begin CPR. Chest compressions should be done at one-half the normal rate. At least two people should go for help and stay together for safety.
3. If the person can be easily transported out of the backcountry in an improvised stretcher, the rescuers may elect to do this while performing CPR during the transport as best as possible.

Never assume that a profoundly hypothermic person is dead until his body has been warmed thoroughly and there are still no signs of life. It is possible, though rare, that one without detectable signs of life will recover when rewarmed.

---
